# Snapfinger Creek Animal Hospital

- We are looking for youth (males and females) ages 14-20 (and having completed the 8th grade) that are interested in learning more about veterinary medicine and practices. Youth accepted into the program will get an inside look and hands on experience at Snapfinger creek Animal Hospital and will make a difference in the lives of animals all over Decatur.

**Through this program it is our sincere hope that youth will learn a greater respect for veterinary medicine and an understanding of how they can make a difference in the lives of animals and their devoted owners.**
