

EAGLE SERVICE PROJECTS: POINTS OF CONTACT & PROJECT IDEAS

4th Edition - January 9, 2013

This is a list of points of contact for Eagle Projects and Unit Service Projects. If a name appears on this list with an * near it, I have confirmed that this person works with Scouts on Eagle Projects. I have listed types of projects that may be worked on at each location. Do not let this list limit ideas on what type of project a Scout or Troop wants to work on. You may well be able to sell an idea that really appeals to you. If you have any questions, please give me a call.

NOTES:

Any name on this list is subject to change, but the phone numbers should not change for some time.

When calling any of the points of contact or other contacts as well, be very persistent. You may have to call several times. These people work out in the field and return calls when they can. *Don't be afraid to leave a message.* Remember that they work weekends, and try to reach them then also. Log all of your time spent on the phone. IT COUNTS!

If you are having trouble contacting the person by phone, write a letter or send an e-mail. Remember to ask for a response by mail, e-mail or phone.

Give your point of contact time to plan for your project. You are probably not the only project going on!

Always set up appointments that are convenient for the people that you are working with. A little cooperation goes a long way.

Remember that each Eagle Project should have a goal and that goal should not be time related. If you are doing trail work, your goal should be to work 100 feet or ¼ mile of trail, or install 15 water bars, not work 4-6 hours.

Keep an open mind. Other places to look for projects may include: Churches, Schools, Civic Groups (Lions, Jaycees, Special Olympics, Elks, Moose, etc.), Hospitals, Homeless or Battered Women's Shelters, Ronald McDonald House, or Save The Family Foundation. Don't be afraid to check around.

If you are doing trail maintenance or building, remember that the TREC program has a great "how to" program. Their handout has many good diagrams and a lot of good information. The TREC program also has training and a patch program. **If your troop or Life Scout does trail work, look into TREC by contacting Eric Hiser at (602) 279-5009.**

ENJOY YOUR PROJECT EXPERIENCE!

EAGLE SERVICE PROJECTS: Points of Contact and Project Ideas

ORGANIZATION	CONTACT	PHONE NUMBER	PROJECT TYPES
Phoenix Parks & Recreation 200 W. Washington St. Phoenix, AZ 85003
