

ADOPT A SCHOOL PROGRAM

The hope at the heart of Adopt-a-School is to build strong, sustaining relationships with schools...creating thousands of lasting community partnerships across the U.S.

Through committed volunteer efforts – from landscaping and clean-up outside the school building to Scouts' active participation in school events throughout the year – Scouting will become a defined presence in improving our nation's schools.

The BSA Adopt-a-School Program is an exciting and comprehensive undertaking that will connect Scout packs, troops and crews across the country with schools in their communities. Participating Scouts then work, within clearly defined guidelines, to partner with school administrations and offer the volunteer services that most efficiently meet their school's needs. With each unit offering their school a minimum one-year commitment, meaningful community relationships are built and significant changes will happen in the schools.

BSA ADOPT-A-SCHOOL VOLUNTEER IDEAS

Here are a few potential project ideas to get you started. Our priority remains to let your schools specific needs determine how we serve.

- Grounds beautification
- Building improvements
- Giving Tree coordination
- Teacher appreciation
- Helpers during festivals
- Book Drive coordination
- Clean-up after school events
- Green effort coordination
- Literacy program coordination
- Food Drive coordination
